Presentation speaking order

Châu Ngọc Đức

English narration for assigned slides, in the classroom display order.

PRESENTER	ROLE	SLIDES	COVERAGE
Trần Việt Hải	Opening	**1–4**	Introduction, problem, project goals
Lâm Xê Khoa	Main presenter 1	**5–15**	LLMs, RAG, architecture, source PDFs, metadata
Mai Tuấn Dũng	Main presenter 2	**16–26**	Chunking, embeddings, FAISS, pipelines, LCEL, prompting
Sơn Nguyên	Main presenter 3	**27–37**	Ollama, app.py, logging, evaluation, risks, conclusion
Châu Ngọc Đức	Demo lead	**38**	Observed LangChain question; launch/operate demo
Trần Việt Hải	Demo + closing	**39–40**	Out-of-PDF question; instructor questions; closing

Display order

Slides 1–30 → original slides 33–39 → original slides 31–32 → final Questions slide 40. The presentation-order PowerPoint already reflects this sequence.

Duc operates the Windows 11 terminal and introduces the real LangChain screenshot. Hai demonstrates an out-of-PDF question, enters the instructor's questions, and closes the presentation. Both can assist with the live Q&A.

Demonstration safeguard

Use only observed outputs and verify answers against the sample PDF. A retrieved source list alone does not establish that the generated answer is supported. The old slides 31–32 become slides 38–39 in the speaking-order edition.

Observed Demo A: LangChain Question

WHAT TO SAY

This is a real screenshot from the user's Windows terminal. The question in Vietnamese asks what LangChain is. The model produces a plausible explanation and lists retrieved PDF chunks. The screenshot reports 9.52 seconds. However, we inspected the bundled sample PDF and found that it does not provide the definition shown in the answer. Therefore, this is not a validated grounded success. It is a useful example of how generated knowledge can exceed the retrieved evidence.

KEY TAKEAWAY

A plausible answer plus a source list is not necessarily source-grounded.

SPEAKER HANDOFF / LIVE DEMO LINE

I will now pass the demonstration to Hai, who will test an out-of-scope question and take the instructor’s questions.

Evidence note: This slide uses a genuine user-supplied terminal screenshot. Do not claim a benchmark or source-grounded accuracy from one screenshot.
